

**REMARKS**

In the May 2, 2007 Office Action, claims 1-29 were rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-29, respectively, of U.S. Patent No. 6,608,818.

By the present response, claims 1-29 remain in this application. Claims 13, 20, 21 and 25-28 have been amended to correct clerical errors, and clarify and broaden the scope of the claims. None of these amendments are narrowing amendments for reasons of patentability.

To overcome the obviousness-type double patenting rejection, the owner presents herewith a terminal disclaimer together with the required disclaimer fee. The terminal disclaimer disclaims the terminal part of any patent granted on this application which would extend beyond the expiration date of commonly owned U.S. Patent No. 6,608,818. The filing of the terminal disclaimer effectively overcomes the obviousness-type double patenting rejection based on the '818 patent.

### REQUEST FOR ALLOWANCE

In view of the foregoing amendments and remarks, it is respectfully submitted that this application is now in condition for allowance, and accordingly, reconsideration and allowance are respectfully requested. Should any issues remain which the Examiner believes could be resolved in a telephone interview, the Examiner is requested to telephone Applicant's undersigned attorney

Respectfully submitted,
